ER Diagram.

Assumptions

1) Customer needs to enter business ID and receipt ID from receipt in order to write review.
2) Customer will be able to write review for each service(receipt), so the same customer will be able to write multiple reviews if he/she took multiple services from same provider.
3) Initially review will be inserted with status pending (P), business owner will have 30 days to respond, if the there is no response for 30 days then review will be activated (A).If there is a response, review will activated with response.
4) To categorize business, created BUSINESS_TYPE table rather than directly putting type in the BUSINESS table.
5) Review are anonymous.
